**TOMUS 15**

1988

**Contents — Содержание**

|   |         |
|---|---------|
| Andrienko, V. A., On the rate of Cesàro summability of orthogonal series .....  | 263—281 |
| Бахвалов, Н. С., Интерполяционные теоремы для классов функций с доминирующими смешанной производной.....  | 55—65   |
| Belinskii, E. S., Approximation of functions of several variables by trigonometric polynomials with given number of harmonics, and estimates of $\varepsilon$ -entropy..... | 67—74   |
| Biebler, K.-E., Fortsetzungssätze und Moduln über Semifields .....  | 75—104  |
| Demenko, V. N., On $p$ -Helson sets in $R^n$ .....  | 17—35   |
| Dutta, T. K. and Mukhopadhyay, S. N., On the Riemann derivatives of $C_sP$ -integrable functions .....  | 159—174 |
| Коробейник, Ю. Ф., О мультипликаторах весовых функциональных пространств  | 105—114 |
| Majorov, V. E., On a multiplicative inequality for derived functions .....  | 115—125 |
| Meaney, C., Transferring estimates for zonal convolution operators .....  | 175—193 |
| Merzlyakov, S. G., Spectral synthesis for Euler type operators .....  | 3—16    |
| Móricz, F., On the maximum of the rectangular partial sums of double trigonometric series with nonnegative coefficients .....   | 283—290 |
| Игнен Тху, Т. Х., Оператор $D(D^2+1^2)\dots(D^2+n^2)$ и тригонометрическая интерполяция .....   | 291—306 |
| Nurpeisov, R. Z., On the uniform $(C, 1)$ -summability of Fourier series and integrability of series with respect to multiplicative orthonormal systems .....               | 127—143 |
| Salieva, O. A., Direct and converse imbedding theorems for seminormed spaces .....  | 145—158 |
| Settu, S. A., Approximation of continuous functions by $F(a, q)$ means .....  | 307—319 |
| Шcherbakov, V. I., A test of convergence of Fourier series with respect to multiplicative systems, analogous to the Jordan test.....  | 37—54   |
| Szalay, I., On the properties of the strong Cesàro summability and strong convergence of series .....   | 195—209 |
| Szalay, I., On the strong Cesàro summability of double series .....   | 321—341 |
| Tervo, J., On weak solutions of linear coercive integral equations in spaces $L^q(X; \mathcal{H})$  | 211—226 |
| Vasilenko, A. V., On optimality of spline interpolation for recovery of differentiable functions .....  | 227—243 |
| Задерей, П. В., Асимптотические равенства для интегралов от модуля суммы кратного ряда из синусов .....   | 245—262 |
